

# DEMENTIA CONGRESS 2018

July 16 - 18, 2018, Valencia, Spain

## 2<sup>nd</sup> Innovations and State of the Art in Dementia Research

## Featured Speakers

**Title: Tau-specific D-enantiomeric peptides for therapeutic applications in Alzheimer's disease**

**Susanne Aileen Funke**, Institut fuer Bioanalytik, Germany

**Title: Virtual Gene Panel For Whole Exome Sequencing Studies On Neurodegenerative Diseases**

**Eva Bagyinszky**, Gachon University, South Korea

**Title: Fixed-dose combination of donepezil hydrochloride and memantine hydrochloride for treatment of moderate to severe Alzheimer's disease**

**Stevin Zung**, Aché Laboratories, Brazil

**Title: ADFlag, a diagnostic blood test for pre-dementia stages of Alzheimer's disease**

**Beatrice Blanc**, ICDD, France

**Title: Multimodality imaging for clinical research: The role of bio-photonics**

**Daniel Farkas**, USC/TBW, USA

**Title: Cmax-based synergistic therapeutic effect on cognitive disability in mild Alzheimer's disease after 36 weeks treatment with baclofen and acamprosate**

**Jacques Touchon**, Faculté de Médecine de Montpellier, France

**Title: The effect of navigational problems and assessment location on driving test performance for people with Alzheimer's disease**

**Kay Russell**, Central Queensland University, Australia

**Title: Alteration of hippocampus and amygdala in subjective cognitive decline and mild cognitive impairment among the community dwelling Chinese**

Ling Yue, Shanghai Jiao Tong University School of Medicine, China

**Title: Population-based analysis of pathological correlates of dementia in the oldest old**

**Maarit Tanskanen**, University of Helsinki and HUSLAB, Finland

**Title: Tetraspanin 6: a key regulator of the lysosomal degradation and exosome release of amyloid precursor protein fragments**

**Francisc X. Guix**, VIB Center for Brain and Disease research - VIB, Spain

**Title: A study on support for older adults with moderate to severe dementia following spousal death**

**Akiko Watanabe**, Miyagi University, Japan

**Title: Estrogen regulation of mitochondrial respiration is cell type and ER subtype specific**

**Yiwei Wang**, University of Southern California, USA

**Title: Cerebrovascular lesions in Pick complex diseases: a neuropathological study with a 7.0-tesla magnetic resonance imaging**

**Jacques L. De Reuck**, Director of the Ghent Stroke Centre, Belgium

**Title: Unique Challenges Facing Eldelry Ethnic Minorities In The United States**

**Shaista Kazmi**, the study of Asian American Health, USA

**Title: A quantitative assay to measure human cerebrospinal fluid induced membrane permeabilization**

**Suman De**, University of Cambridge, UK

**Title: Estrogen regulation of mitochondrial respiration is cell type and ER subtype specific**

**Yiwei Wang**, University of Southern California, USA

**Title: Are cerebrospinal fluid biomarkers a useful tool to discriminate patients with mild cognitive impairment from healthy individuals with no cognitive deterioration?**

**Júlia Cunha Loureiro**, Universidade de São Paulo, Brasil

**Title: Cultural Beliefs about Alzheimer's Disease in Mexican and Mexican-American Families with Autosomal Dominant Alzheimer's Disease**

**Chizoba Mosieri**, Insitute for Global Health, USA

**Title: Exploring the lived experience of the individual of Black ethnicity living with dementia.**

**Tiritega Perfect Mawaka**, London Southbank University, UK

**Title: Dementia among Indigenous populations in Ontario**

**Laura A Warren**, Laurentian University, Canada

**Title: Is there discrimination, between illiterate and literate dementia elderly in functional dependency: Applying reliable tool (Bayer-ADL)**

**Mahtab Alizadeh-Khoei**, Tehran University of Medical Sciences, Tehran; Iran

**Title: Factors Associated with Anxiety Disorder among ART clients attending ART Clinic at Hawassa Universty Referral Hospital, Hawassa, SNNPR, Ethiopia**

**Ara Bazyan**, Institute of Higher Nervous Activity and Neurophysiology Russian Academy of Science, Moscow, Russia

**Title: Neuroprotective role a small peptide derived from neuronal cell cycle like kinase (Cdk5) activator (p35)**

**Harish Pant**, National Institutes of Health, USA

**Title: ADFlag, a diagnostic blood test for pre-dementia stages of Alzheimer's disease**

**Babak Tousi**, Cleveland Clinic, USA

**Title: Potential biomarkers in the cerebrospinal fluid for the diagnosis of alzheimer's disease**

**Fátima Mesa-Herrera**, Universidad de La Laguna, Spain

**Title: The Needs of Client's with Alzheimer's disease: Input to Home Care Management**

**Marites M. Chan**, Lorma Colleges, Philippines

**Title: Alpha-synuclein in CSF of mild cognitive impairment patients. A preliminary study**

**J. Antonio monge- argilés**, University General Hospital of Alicante. Spain

**Title: Características clínicas y de imagen del Parkinsonismo atípico; serie de casos**

**Escobedo-Martínez Jorge Alberto**, Revista Mexicana de Neurociencia, Mexico

**Title: Clinical Impact of Cerebrospinal Fluid Biomarkers in Mild Cognitive Impairment Diagnosis**

**Emmanuel COGNAT**, University Paris Diderot-Paris 7, France

**Title: Spatial training ameliorates synaptic plasticity deficits associated with the NLRP3 inflammasome in the hippocampus of PR5 mice**

**Wei-Gang Gong**, China

**Title: Blood Tau Level As A Marker Of Alzheimer's Disease And Its Correlation With Total Tau Deposition In The Brain**

**Saroj Kumar Yadav**, All India Institute of Medical Sciences, India

**Title: Harnessing Mass Spectra Data with KNN Principle; Alzheimer's Disease Diagnoses**

**Destiny E. O. Anyaiwe**, Oakland University, USA

**Title: Sex differences in the cognitive and hippocampal effects of streptozotocin in an animal model of sporadic AD**

**Jian Bao**, Jiangnan University, China

**Title: Combination of routine physical exercise and antioxidant supplements ameliorate AD-like symptoms among *Drosophila melanogaster***

**Girish Chandran**, Affiliate of University of Mysore, India

**Title: The Influence of Cognitive Activities on Cognitive Function among Elderlies in Jakarta, Indonesia**

**Budi Riyanto Wreksoatmodjo**, Atmajaya Catholic University, Indonesia

**Note:** We pleased to inform you that speaker slots left in our program, please contact Steve Michael to reserve a slot in our program by email [dementiacongress@innovinc.org](mailto:dementiacongress@innovinc.org)

## About Valencia

*Spain's third-largest city is a magnificent place, content for Madrid and Barcelona to grab the headlines while it gets on with being a wonderfully liveable city with thriving cultural, eating and nightlife scenes. Never afraid to innovate, Valencia diverted its flood-prone river to the outskirts of town and converted the former riverbed into a superb green ribbon of park winding right through the city. On it are the strikingly futuristic buildings of the Ciudad de las Artes y las Ciencias, designed by local boy Santiago Calatrava. Other brilliant contemporary buildings grace the city, which also has a fistful of fabulous Modernista architecture, great museums and a large, characterful old quarter. Valencia, surrounded by its huerta, a fertile fruit-and-veg farmland, is famous as the home of rice dishes such as paella, but its buzzy dining scene offers plenty more besides.*

*Venue Address:*

**Meliá Valencia**  
**Av. de Les Corts Valencianes, 52, 46015 Valencia, Spain**

## **Important dates:**

Final round of abstract submissions on April 15th, 2018

## **Contact Us:**

5201 Great America Pkwy #320, Santa Clara, CA 95054, United States
